The Master's Message

Hello everyone and happy new year! I would like to start off by thanking everyone who attended the installation. I am very proud to say that we now have a full officers line that does not contain any past masters.

As I look forward to this year I hope to see our lodge once again become a well known pillar of the community. The officers and I hope to move Evergreen Lodge towards more community oriented projects that can bring the lodge back into the public focus. As you may know California is in financial disarray and school budgets have been dramatically slashed; because of this we are currently in the planning stages of several events that will target our public schools and help bring classrooms the necessary supplies they need to continue teaching our future generations.

In addition I would like to remind everyone that it is that time of year again and yes....the dues reminders have gone out! So please be expecting to receive those in the mail. Also if you have not been to the lodge in a while I invite you to take this opportunity and visit the lodge at least for a stated meeting dinner; which will be prepared by our new Junior Warden: Scott Bennett. He does appreciate and need RSVP's so **please email him at sbennett_enjoylife@yahoo.com or call him at 619-977-3663.**

In conclusion, the officers and I would like to wish everyone a great new year filled with good tidings. We hope to see you at the lodge soon.

Sincerely,
Drew Gilkey

The word "symbol" is derived from the Greek , meaning "to compare". A symbol is the expression of an idea by comparison. Often, an abstract idea may be best conveyed by a comparison with a concrete object. A dictionary definition of a symbol would be, a sign or representation which suggest something else.

Symbolism, therefore, is the science of symbols or signs, the philosophy or art of representing abstract truths and ideas by concrete things. When we would know the truth in regard to things too great for our minds to comprehend, we take as a symbol that which is within our mental grasp.
